

# *RiskTracker – the consistent approach to client assessment*

- ◆ RiskTracker has become Jersey's risk assessment tool of choice used variously by lawyers, accountants, investment managers, trust companies and States' Departments.
- ◆ Self contained, easily accessible database of client profiles with all the relevant documentation.
- ◆ Allows businesses to set their own sets of weighted risks and then benchmark clients or departments against them.
- ◆ Automatic archiving, makes historic client profiles simple to retrieve.
- ◆ Designed to enable businesses to adjust their risks simply and efficiently to react to new concerns or a different risk appetite.
- ◆ A wide range of reports greatly simplify the job of Corporate Governance and the application of Best Practice Standards, especially for protection against Money Laundering and General Political Exposure.
- ◆ Simple, adaptable and Microsoft certified.
