

## WHO WAS WORKING AT YOUR DESK LAST NIGHT?

Most companies now carry out stringent vetting procedures for their staff and operate with sophisticated security access systems but, how much do they know about the staff employed by their contract cleaning company who also have access to their premises and most probably work unsupervised.

J.C.F. Cleaners Company Ltd carry out a strict pre-employment screening process of all their staff including financial sanctions and terrorism checks which matches and indeed exceeds the requirements of BS7858:2006.
