

## Swindon Crime Reduction Initiative Partnership

Swindon Crime Reduction Initiative Partnership, known as SCRIP, is the organisation working to reduce business crime. At SCRIP we are committed to reducing business losses through the prevention of retail crime, and to increasing profit by providing a safe and secure environment that will attract visitors. We do this by:

- Working together with businesses, the police and other enforcement agencies to reduce crime through training and intelligence sharing;
- Providing a radio membership system which will link you to other businesses in Swindon & to the Police;
- Monitoring CCTV across the town to prevent and detect crime;
- Collecting data on all individuals carrying out criminal activity & distributing intelligence reports and updates;
- Issuing Exclusion Notices to offenders and produce evidence to support ASBO;
- Employing a well trained 'Street Team' who work with you to give advice on crime prevention and provide a reassuring presence;
- Devising & implementing crime reduction initiatives such as the Streetsafe central giving scheme

To learn more about SCRIP please contact us:
