

Key Integrated Systems Ltd.
Est. 1976.

"Effective and affordable security solutions"

Key Integrated Systems Ltd provides tailor made security solutions for Domestic, Commercial and Industrial Premises. Our mission is to capture your priorities and requirements and deliver to the design, quality and safety that you would expect from a certified company. We tackle each project by understanding your needs and we guarantee an end result of an integrated solution that will exceed those expectations. This coupled with our commitment to provide continued customer service and support, is the essence of our company ethos and is the foundation of our success.

Recognised by NSI National Security Inspectorate (formerly NACOSS) this means that our security systems are designed and installed to the latest British Standards. Additionally, all our systems are Insurance approved.

Our multi skilled engineering force, not only provides a 24-hour emergency callout facility, they are also trained to the highest industry standards, security screened and police vetted.

Additionally, we have a successful partnership with the largest independent Alarm Receiving Centre in the UK. Monitoring over 25,000 systems and complying with all current British and European Standards regarding ARC Monitoring.

For security reasons we do not advertise our client base, however full references are available upon request.

Our complete range of services includes:

- Intruder Alarms
- CCTV Systems
- Fire Alarms
- ARC Monitoring for all of the above
- Automatic Gates & Barriers
- Door Entry & Intercom Systems
- Door Access & Control Systems
- Audio Visual Applications
- Service and Maintenance
